Education

University of Leicester - Computer Science BSc.

September 2023 - June 2026

- Predicted Grade: First class (1:1)
- Rel. Modules: Data Analytics, Software Architecture & System Dev', Software Engineering, Databases

The John Fisher School - A-Level & GCSEs

September 2015 - August 2022

- A-Levels: EPQ (A), Maths (B), Chemistry (B), Biology (C).
- Grades 9-6 10 GCSEs incl. Maths (8), English Language (6), English Literature (6)

Work Experience

Data Science Consultant – DataKind UK, London

September 2025 – Present

- Supporting third sector organisations and non-profits to amplify their data science infrastructure
- Worked with real datasets to perform exploratory data analysis to uncover insights for the organisation

Group IT Intern - RICOH, London

May 2018 – June 2018

- Delivered technology support, deploying new & existing equipment, installed & configured software on 100s of devices.
- Maintained software and hardware asset inventory consisting of 1000s of devices from several countries with GDPR
- Collaborated with local and international service desk teams to follow up on incidences in service and internal management systems.

Edutech Consultant - EduTech, Leicester

October 2024 – January 2025

- Ability to analyse educational data and metrics to inform technology strategies and instructional improvements from creating, customizing, and managing LMS platforms

Professional Development

- ★ Certified Data Scientist via Google's Advanced Data Analytics Course – Google
- ★ AI & Machine Learning Workshop - Google Developer Society, Imperial College London

Projects

Time Series Forecasting

- Built machine learning models in Python to predict demand using techniques such as Linear Regression, Deseasoning, and Multistep Forecasting.
- Conducted EDA on large datasets and developed insights into demand inflection points.
- Produced Power BI dashboards and GitHub-hosted reports to present findings in a stakeholder-ready format.

Full-Stack IBM Skill Building Website - IBM Skills Build

- Developed a full-stack Spring Boot website with Java, SQL, HTML, and CSS, graded at a First-Class.
- Designed and implemented digital marketplace features, managing structured databases for customer transactions.

Technical Skills

Languages: Python, SQL, Java, JavaScript, TypeScript, HTML, CSS, React

Development Tools: Power BI, Excel, GitHub, Microsoft Office 365

Data Methods: EDA, Linear Regression, Time Series Forecasting, A/B Testing, Model Development, Data Cleaning & Validation (Matplotlib, Seaborn, Pandas, Numpy, Sklearn)

Leadership / Extracurricular

Workstream Lead & Student Advisor - Student Union, Leicester

January 2025 - Present

- Strengthened skills in data storytelling, insight generation, and presenting research to decision-makers.
- Analysed large-scale student feedback datasets to inform university decision-making and drive improvements across accommodation and campus services

Computer Science Society Ambassador - The John Fisher School, London

January 2016 - July 2019

- Hosted and presented at events such as assemblies, including Award Ceremonies, Cyber Security campaigns across the school regularly. Each consisted of 150-200 students and parents.
- Curated & taught lessons teaching 30 students programming fundamentals in an interactive way using micro-bits.
